Poster Design Competition

Kingdom-men have different kinds of talents!

We organized a poster design competition at the Guanlan Factory, the theme is to encourage the participants to show off their design talent, through a poster to spread a message reminding colleagues "Quality goes first" and also "Do concentrate and do good". We received tens of entries, among them, three outstanding ones were selected from a panel of judges formed by the senior management. The three posters selected will be posted at the factory and the winners will receive prizes accordingly.

Take a look at their creations!
